Something Dangerous Might Be In Your Home

Radon is a tasteless, odorless gas that comes from the ground into your home. It is the second leading cause of lung cancer in the United States.

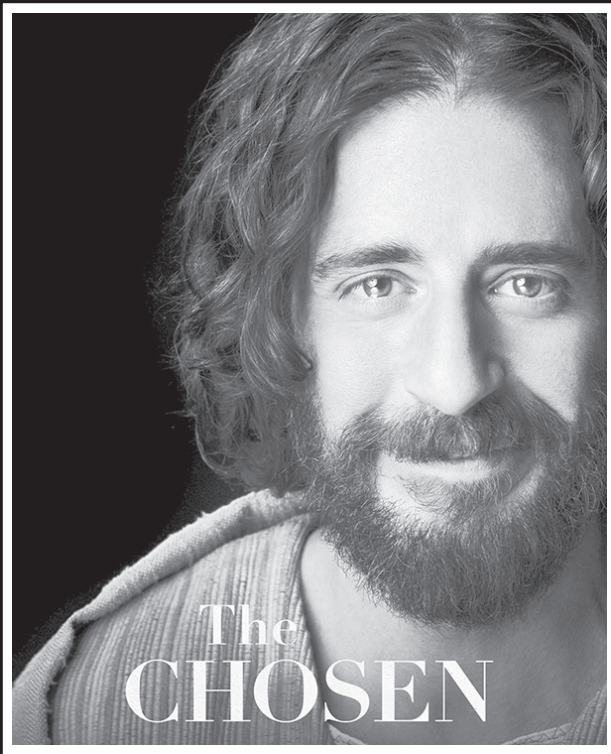

The only way to know if your home has high levels of Radon is to test for it. The Health Department has **free tests** available at our office at 1137 South Locust Street in Grand Island. Pick yours up or log onto www.cdhd.ne.gov for more information.

Radon tests are provided through a grant from the Nebraska Department of Health and Human Services.
