My Dad's Superpower Is....

Every dad is a super hero in the minds of his children. And while not every dad is Mr. Incredible, whether it's for his ingenuity, ability to fix things, resourcefulness, wisdom or even just his vast library of groaner dad jokes, every father has some kind of superpower.

For Father's Day we are asking readers and followers to tell us about your dad's superpower. "My dad's superpower is/was..." You fill in the rest.

Honor your father by sharing his superpower.
